DEPARTMENT:B.COM
COLLEGE: SHRI KRISHNA SWAMY COLLEGE FOR WOMEN

PROJECT TITLE

SALARY AND COMPENSATION ANALYSIS THROUGH EXCEL DATA MODELLING

AGENDA

Problem Statement
1. Project Overview
2. End Users
3. Our Solution and Proposition
4. Dataset Description
5. Modelling Approach
6. Results and Discussion
7. Conclusion

PROBLEM STATEMENT

- Briefly describe the issue or challenge addressed by the project.

- Explain the significance and impact of the problem.

PROJECT OVERVIEW

- Provide context and background information on the project.
- Outline project objectives, scope, and timeline.
- Identify stakeholders and end-users.

WHO ARE THE END USERS?

The end users such as

- HR PERSONNEL
- DEPARTMENT HEADS/MANAGER
- EMPLOYEES
- FINANCE TEAM
- COMPENSATION
- BENEFITS TEAM
- DEPARTMENTAL ADMINISTRATORS.

OUR SOLUTION AND ITS VALUE PROPOSITION

1. Clearly articulate the proposed solution.

2. Highlight the unique value proposition

Dataset Description

1. Describe data sources (e.g., Employee category, Grand total).
2. Outline data characteristics (e.g., variables, data types).
3. Specify sample size and population.
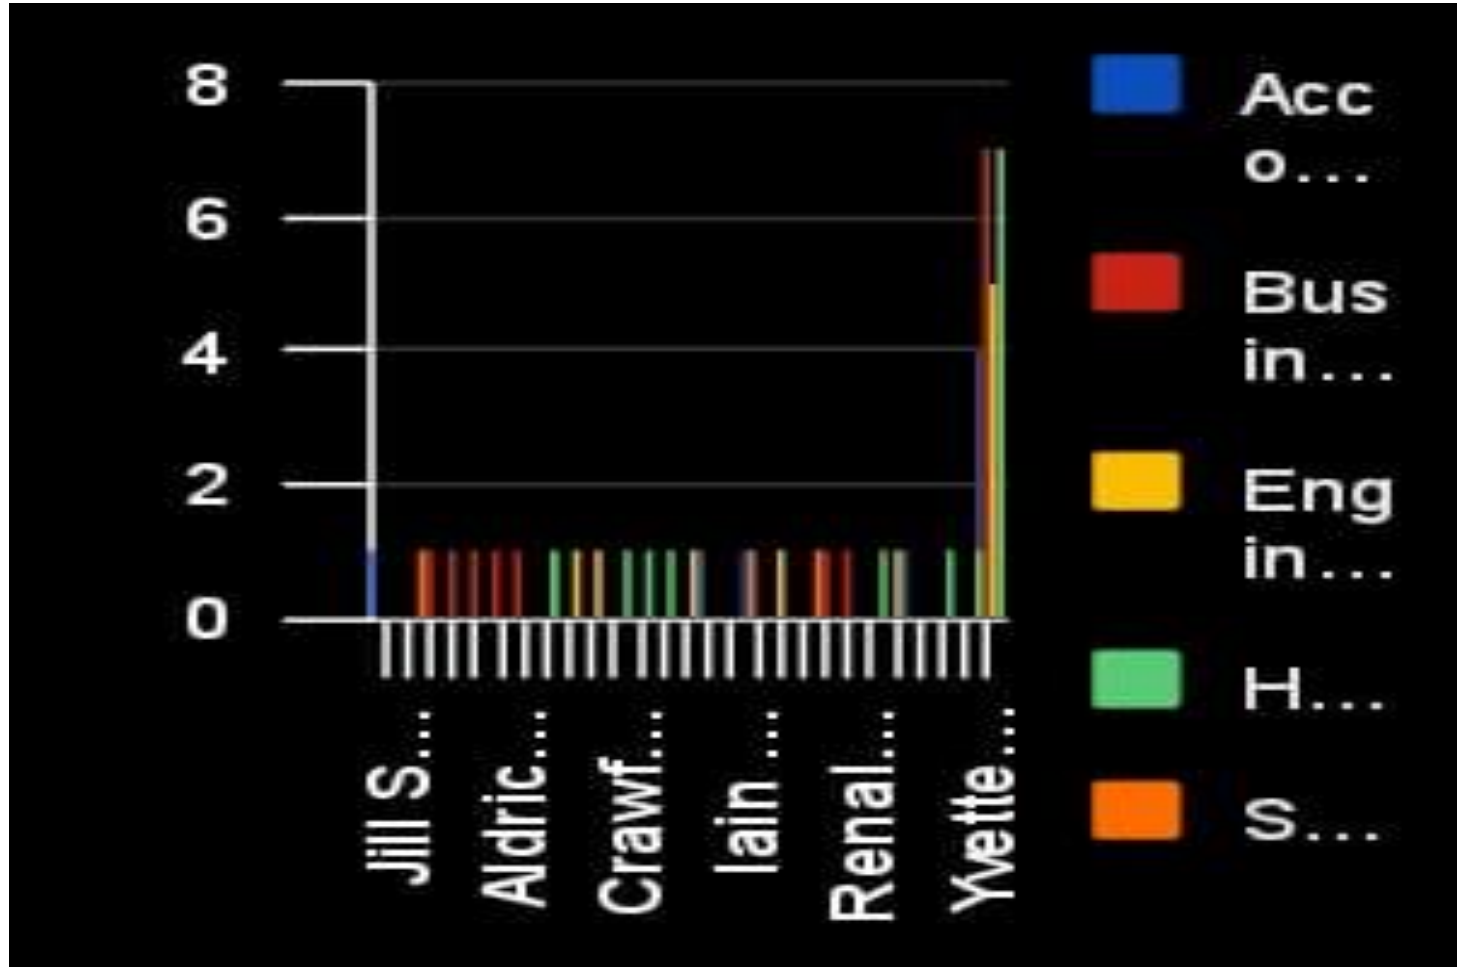

THE "WOW" IN OUR SOLUTION

I.   Data-Driven Insights
II.   Efficiency and Automation
III. Personalization and Flexibility
IV.   Strategic Decision Support
V.   Innovative Methodologies
VI.   User Experience
VII. Business Outcomes

MODELLING

1. Describe data modeling techniques (e.g.,3 D model pie chart).
2. Explain rationale behind chosen approach.
3. Outline data preparation and preprocessing steps.

RESULTS

RESULT

1. Present key findings and insights.
2. Interpret results in context of problem statement.
3. Discuss implications and recommendations.

conclusion

1. Summarize project's main contributions.
2. Reiterate value proposition.
3. Outline potential future work.
